

MOTIP Cockpit Foam (Water-based)

Technical Information

Clean and embellish the dashboard in your car with MOTIP Cockpitspray Foam. The foam is water-carrying and leaves no residue, even on windscreens.

Ord.-no: 000702

Quality & properties

- Excellent cleansing properties
- Waterbased foam
- Subtle scent
- Antistatic
- Leaves no residue, not even on windscreens
- 360° valve

Physical & chemical data

- Base: Tenside solution
- Colourname: no colour
- Surfaces: Dashboard and other plastic parts in the car
- Minimum Working Temperature: 10 °C
- Maximum Working Temperature: 25 °C
- Flash point: n.a.
- Storage stability: 10 y
- Content: 600 ML

How to use

Before use, carefully read the directions on the packaging and act accordingly. The aerosol should have room temperature. Best processing temperature 5 to 30°C. Before use, shake the aerosol. Switch off electrical installations before treatment. Apply the cockpit spray and allow to take effect so the foam can break. Then polish with a dry cloth.

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

As of May 7, 2025 – This release replaces all eventually earlier issued versions.
