Surfaces: Lacquered and plastic parts
Minimum Working Temperature: 10 °C
Maximum Working Temperature: 25 °C
Flash point:

- n.a. °C
- n.a.

Storage stability:

- 10 y
- 5 y

Content:

- 600 ML
- 500 ML

How to use

Before use, carefully read the directions on the packaging and act accordingly.
The aerosol should have room temperature. Best processing temperature 5 to 30°C.
Before use, shake the aerosol.
Generously apply Insect Cleaner and allow to take effect.
Remove the dirt, when necessary with a bug shifter.
Do not use in full sunlight.

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

As of May 7, 2025 – This release replaces all eventually earlier issued versions.
